

## Astrologisk Magi

Astrologisk magi kommer til Europa i middelalderen gennem to skrifter, og er en ny form for magi. De to skrifter er *Picatrix* og *De Imaginibus*. Disse to arabiske skrifter stammer fra et såkaldt harransk-hermetisk miljø. I Europa kommenteres de to skrifter især i *Speculum astronomiae*, sandsynligvis skrevet af Albertus Magnus, og i Cornelius Agrippas *De occulta philosophia* fra 1533. Den astrologiske (eller astrale) magi går ud på at trække især planeternes energier ned i et objekt af en slags. Normalt var dette en talisman lavet af guld, sølv, kobber etc.. men et sigil lavet på papir, kan også gøre det. Et sigil er et magisk tegn, mere end et symbol. Her kan man anvende allerede eksisterende sigiler, eller lave dem selv.

Følgende er nogle sigiler taget fra *Picatrix*, eller kan de konstrueres ud fra magiske kvadrater.

*Picatrix* nævner, at man også kan bruge billeder, i.e. tegninger, af f.eks. menneskelige skikkelser, f.eks. denne:

En talisman for at få en succesfuld forretning

-Lav et billede af en mand med en vægt i sin hånd på en gul platte, når ascendanten er i Vædder eller Skorpion og mens Månen er i den. En person, der holder platten vil få stor succes med sin forretning, hvis Allah vil det-

### **Hvordan og hvornår laver man sigiler og billeder (og evt. magiske bogstaver)?**

Man gør det, så man er helt absorberet af det; man gør sig klart, hvad man vil (opnå), man gør det alene, bedst i enerum, og man gør det, når planeterne står rigtigt.

#### *Den astrologiske timing*

I den magiske astrologi finder man to forskellige systemer. Vælg den man (I), synes bedst om, eller kombiner dem evt. Det ene system er ugedage og dets timer (planet-hersker). Det andet system beror på elektions-astrologi. Picatrix anvender begge dele, undertiden kombineret. For at finde ugedagsplaneten og time-planeten gør brug af følgende link: <http://www.astrology.com.tr/planetary-hours.asp> ; dog skal følgende være opfyldt:

-Beware and take extreme caution not to let the ascendant be a daytime ascendant in a daytime constellation or a night-time ascendant in a night-time constellation (Picatrix, s. 85)

Dagkonstellationer og tegn er: solens, Jupiters og Saturns dage og tegn, mens natkonstellationer og tegn er månens, Venus' og Mars' dage og tegn. F.eks. er det ikke godt en søndag (solens dag), mens Løven, Skyte, Fisk, Stenbuk eller Vandmand er på ascendanten. Merkur og dermed onsdag samt Tvilling og Jomfru er ikke med i dette.

#### *Når og hvis man arbejder ud fra elektions-astrologien, gælder nogle overordnede regler:*

Månen skal være i gode tegn, dvs. i Krebs, Tyr, Vægt, Skytte eller Fisk (Venus og Jupiters tegn) og være fri for dårlige aspekter, f.eks. kvadrat Saturn. Månen skal aspektere signifikator på en god måde. Her er en senere liste fra Francis Barrett, *the Magus*, 1801:

The table of Saturn, "...helps childbirth and to make any man safe and powerful, and to cause success of petitions with princes, and powers..." The table of Jupiter, "...conduces to gain, and riches, favor, and love, peace, and concord, and to appease enemies, to confirm honors, dignities, and counsels..." The table of Mars, "...makes a man potent in war, and judgments, and petitions, and terrible to his enemies, and victorious over them.." The table of the Sun, "...renders him that wears it to be renowned, amiable, acceptable, potent in all his works, and equals him to a king, elevating his fortunes, enabling to do whatever he will..." The table of Venus, "...promotes concord, ends strife, procures the love of women, helps conception, is good against barrenness, causes ability for generation, dissolves enchantments, and causes peace between man, and woman, and makes all kind of animals fruitful; and being put into a dove or pigeon house, causes an increase. The table of Mercury, "...it renders the bearer thereof grateful, and fortunate to do what he pleases: it brings gain, and prevents poverty, conduces to memory, understanding, and divination, and to the understanding of occult things by dreams..." The table of the Moon, "...renders the bearer thereof grateful, amiable, pleasant, cheerful, honored, removing all malice, and ill will. It causes security in a journey, increase of riches, and health of body, drives away enemies and other evil things from what place soever thou shalt wish them to be expelled.
